

1.Product Description

Amino humate is produced by amino acid and humate ,the chelating function is greatly increased and greatly increase its function to soil and plants.

2.Main Specification

| Appearance | Black Granule | Black Granule |
|------------------------|---------------|---------------|
| Product code | JFHA-AAHA-1-G | JFHA-AAHA-2-G |
| Amino Acid(dry basis) | 10.0% min | 10.0% min |
| Nitrogen (N dry basis) | 16.0% min | 12.0% min |
| Humic Acid(dry basis) | 20.0% min | 25.0% min |
| Moisture | 2.0%max | 2.0%max |
| Particle size | 2-4mm | 2-4mm |
| Fineness | / | / |
| pH | 4-6 | 4-6 |

3.Main Function

- Provide plants with necessary amino acid and peptides also largely save the energy for their synthesis.
- Enhanced capability to counter stress condition (drought, hot or cold temperature, transplanting stress etc.) and disease.
- Soluble humate will help to slow release nitrogen and release locked-up phosphorus also activate the micro element in the soil to increase fertility.
- Obvious effect to help to repair damaged tissues.

4.Package

- 1kg, 5kgs, 10kgs printing aluminium foil bag + 10kgs, 20kgs printing carton box.
- 20kgs/25kg woven/paper bags with inner liner.
- 20kgs/25kg color printing PP/PE bags with inner liner.
- 1MT,1.1MT jumbo bags with discharge hole.
- According to customer'requirement.
